

Dear Editor-in-Chief,

- (1) Why your manuscript is suitable for consideration in Zoological Studies.
- (2) An affirmation that your manuscript has not been send to other journals for consideration at the same time.

Please check carefully the research fields of AE to match with your MS. Inappropriate or random selection of AE gives the Editor in Chief impression that you are not serious about your submission.

Here I provide the names of three potential referees to review our manuscript:

(1) Name of reviewer: please add the information
Affiliation of the reviewer: please add the information
Email of the reviewer: please add the information
Research area of the reviewer: please add the information

(2) Name of reviewer: please add the information
Affiliation of the reviewer: please add the information
Email of the reviewer: please add the information
Research area of the reviewer: please add the information

(3) Name of reviewer: please add the information
Affiliation of the reviewer: please add the information
Email of the reviewer: please add the information
Research area of the reviewer: please add the information

Here I listed the compliance with ethics:

Authors' contributions:

Competing interests:
